EDITO

by **Laurent Nizri,**

Altéir Consulting CEO - Acel VP - Paris Fintech Forum Founder & CEO

We are glad to welcome you as one of our 1500 delegates from more than 35 countries. It was a crazy project to organize this event. **Everything began almost a year ago** when for an interview I had to answer "what will be the second edition of Paris Fintech forum?". I answered, without really thinking, that it will be 2 days instead of one, 6 stages instead of 2, more than twice the number of attendees, and much much more international. You can check by yourself what we achieved.

First edition was great, we could just have decided to do a sequel. We did not. **Fintech is a story of impossible challenges.** What is reasonable when a guy of 22 years old tells you he will create a bank? What is "ordinary" in the mind of the thousands of people working in Fintech industry who are dreaming every day to reinvent finance? So we wanted to do an event having the flavour of Fintech: innovative, interesting, affordable but also risky and a bit crazy.

- **Innovative:** we are in many ways. We put on same stage CEOs of classical actors in finance with Fintech's CEOs. We have 125 Fintech pitches, almost exclusively by their CEOs. Exhibition hall: Fintech do have a free booth to get an easy chance to present their innovation without money discrimination. Etc...
- **Interesting:** you to judge, but we hope the program of our different stages will fascinate you. We do not treat only payment or lending, but all faces of fintech. We worked very hard for that. Content first!
- **Affordable:** we are the cheapest event of our kind in Europe. Not to mention that no one pays to be on our editorial stages, and all fintechs employees have a 50% discount on tickets.
- **Risky:** 9 months ago we had not a single idea of who will finance us, but we knew the costs of doing an event in Paris center were quite higher than to bootstrap a fintech.
- **Crazy:** we were a team of 2 people at the beginning, 5 since October. Including our astonishing designer and webmaster. At least our families do think we are crazy!

Thanks to the support of astonishing sponsors, who believed in us even if we were a small team with big dreams, and of course to **the trust of the almost 200 speakers** who accepted to join us, this event is today a reality.

We hope that it will be like a great family meeting of the whole digital finance community.

I wish you a great time at Paris Fintech Forum 2017! And we'll be happy to see you again in 2018, for a brand-new edition!

- Disrupting On Demand Insurance by **Noam Shapira**
- Disrupting Cancer Diagnosis with AI by **Joseph Mossel**

Transforming auto insurance for the digital age.

- Underwriting • Inspection •
- Roadside Assistance • Claims Management •

Who will win the battle on transactions in the galaxy of banking, lending, e-ID, payment and digital money?

Visa?
Apple?
Google?
Facebook?
The old banks?
The new-tech banks?
One of the good old MNOs?
A very smart group of retailers?
(The National Bank) of Iran in Iran for Iranians?

We will see! No matter what you need in IT on this changing planet of digital values, we, RISE, do have the building blocks, the IPRs, the glue and the experience to migrate and connect old ideas and technologies with latest tech-hypes and new developments in a highly secure IT-infrastructure form in banking, payment, e-ID. We are 100% European.

Why? Well, we have ...

- ... done billions of TRX
- ... built national IT infrastructures
- ... connected 50.000 vending machines
- ... connected 800 banks through secure mobile channels
- ... created "KYC-We accept Bitcoin"-Buttons for a Swiss client
- ... united all national MNOs and large banks into one ecosystem
- ... transformed very old legacy banks into smart mobile digital banks
- ... locked private houses in 20 nations via high-secure central services
- ... done payment end2end with our own terminal HW (if you need that)

You are an established brand, an emerging start-up, a very large corporate, well, IT-smart of course? Then we are your innovative IT-plumbers with the necessary skills providing you with the tools, IPRs and building blocks you do not have in place today. You need your large IT-projects to be done with experience in a no-nonsense way? Send us a note at getITdone@rise-world.com and drop us your needs and interests.

FinTech, un secteur pointu et innovant.
